

PLAN FAMILY HOTEL TO COST \$150,000

Company Is Being Formed
to Build Structure Opposite
Carnegie Square.

A stock company is being organized to finance and build a family hotel on North Oregon street, at the Missouri street intersection, to cost \$150,000. The company which is in process of formation will purchase the Johnson house corner opposite Carnegie square and just east of the new Masonic temple building and will erect a concrete and steel building five or more stories in height for the accommodation of the rapidly growing winter colony in El Paso.

The organization will be perfected with five blocks of stock, each valued at \$30,000, which will be disposed of to local capitalists. With this money the site will be purchased and the building erected with a bond issue. If the plans of the proposed company are carried out the work will begin on the hotel this fall.

Plans New Lake House.
A new Lake House is to be built on West Missouri street, just west of the Buchanan intersection. John B. Lake, who recently sold his interest in the Lake house, in the Bassett building, has purchased 50 feet frontage on West Missouri street and will erect a \$15,000 rooming house. The lots were purchased from the Great Texas Realty company.

Two Houses Are Sold.
Mrs. Anna Shackles has sold to F. W. Gerney, of Carrizozo, N. M., a six-room cottage at 1823 Boulevard. The sale was made by J. R. Fisk and the sale price was \$4000.
Mr. Fisk has also bought of Mrs. Howard Fogg a house in Lincoln Park for \$1450, and has sold to Mrs. H. L. Lewis a block of four lots in the same addition for \$300.

Healthy Old Age Is What Dr. Hartman Advocates

S. H. HARTMAN, M. D.

See here, young man, I heard you complaining the other day of being nervous, sleepless, brain-fagged, and the like. A young man, hardly in the zenith of your life, complaining of such things! And this is very common, too. You are not the only one. Probably three out of four of the young men of today have just such symptoms as you describe. What does it mean?

Look at me. I am eighty-two years old. Sound as a nut. Tough as Hickory. Do not know what it is to be tired. While I cannot do as much physical work as I used to when a young man, I can do a great deal. Probably twice as much as the average young man of today.

What has kept me so strong and well? I will tell you. I do not use tobacco. I do not use alcoholic stimulants. I do not use tea or coffee habitually. I go to bed early. I get up early. I am always doing something that occupies my body and mind. I love to work. I take a cold water towel bath every morning, winter and summer. It is these things, that have kept me well and strong.

You could be just as well and strong as I am if you would do as I do. You may ask, do I never get sick. I have never had occasion to take medicine at all? Yes, I have got sick. Sometimes I feel a little touch of catarrhal trouble, like cold, malaria, slight catarrhal symptoms, but my only medicine is Peruna. I always keep a bottle of Peruna in the house. I keep a bottle of Peruna on my desk in my office. Once in a while I take some. I do not take it habitually. Take it only when you feel a little out of sorts. One swallow of Peruna on my desk in my office. It will perhaps be all that will be necessary, but it is always handy by. It is a sorry sight to see the young men of today begin to peter out physically when they ought to be in the glory of their manhood and the height of their vigor. Eat plain food. Live frugally. Give up all weakening habits. Live as God intended you to live. Take Peruna when you do not feel as well as usual.

If you want me to I will send you a book which will tell you a great many more things about yourself and about matters that may be of great value to you. Enclose a two-cent stamp for postage and the book will be sent to you in a plain wrapper and you will not be troubled with any follow-up letters or advertisements.

SPECIAL NOTICE.—Many persons inquire for The Old-time Peruna. They want the Peruna that their Fathers and Mothers used to take. The old Peruna is now called Kataro. If your dealer does not keep it for sale write to the Kataro Company, Columbus, Ohio, and they will tell you all about it.—Adv.

EPIDEMIC Caused by Infected Milk

An Editorial in the El Paso Times, October 12th

Under above heading says, in brief, that one dairy in Chicago was responsible for a great percentage of the 10,000 cases of an epidemic sore throat that prevailed last December. Investigation of the source of the Milk Supply of this dairy showed that the farmers had been suffering from this same disease and that many cases of inflammation of the udders prevailed among the cows.

What Happened in Chicago May Happen Here

Why not get your milk from a dairy that takes every precaution to deliver you the cleanest possible milk. Clean Cows, Clean Barns, Clean Corrals, Clean Milkers, Clean Utensils, Milk Refrigerated and fed up to the moment you get it.

Bottles sterilized with steam, and bottled in the country away from the dust of the city.

Just visit the dairy that supplies you and see if it is CLEAN ENOUGH to satisfy you. If not—WE ARE.

PARTY WORKERS ARE BEING KEPT BUSY BY NEW MEXICO LEADERS

Democrats, While Claiming a Landslide, Are Carefully Polling Voters and Are Keeping Close Watch to See That There Are No Backsliders—Republicans and "Bull Moosers" Are Also Active.

(By George H. Clements.)
Santa Fe, N. M., Oct. 16.—The Democratic state central committee, despite its professed assurance that New Mexico will give a landslide for Wilson and Marshall and for H. D. Ferguson for congress, is not permitting the party workers to go to sleep at any of the switches, failed to slumber by over-confidence. "Every little bit helps," and "It's the little things that count," are the mottoes of chairman Adolph and secretary Greene.

In respect to keeping party precinct workers, as well as voters, keyed up, the Democratic committee seems to have the best of it. Though both Republicans and "Bull Moosers" are active, there does not appear to be much activity displayed around headquarters. Polls and auxiliary headquarters have already been taken by the Democrats, and these have been submitted to men acquainted in the precincts, who suggest what must be done to bring into line this, that and the other man who seems to be backsliding. The backsliders are written to personally, are called on by candidates, bombarded with literature and worked upon otherwise, till they yell "viva Wilson," and then they will be watched until they reach the polls on election day.

Polls Are Taken Quietly.
Polls are being taken by the Republicans and "Bull Moosers" too, but if they are being taken as thoroughly as are those of the Democrats they are being taken much more quietly, and the leaders have not so much to say out for publication.

So far as the newspaper situation in New Mexico is concerned, the stalwart Republicans seem to have much the best of it. The "Bull Moosers," there are 104 papers, daily and weekly, in the state, of which 35 are supporting the Democratic ticket.

The Democratic and Republican committees maintain no bureaus which supply their respective party organs with such "dope" as in the judgment of the bureau managers and of the committee chairman and secretaries will make votes.

Free From Personalities.
The campaign in New Mexico up to date, has been particularly free from personalities, and the Democrats have personally refrained from using any campaign material to denigrate Roosevelt or to his policies. They say that Roosevelt is the best ally they have, as he devotes his time to campaigning in Republican states in an effort to weaken Taft's chances for reelection.

In the local or state field, however, the Democrats have begun a personal fight on Nathan Jaffa, the Republican candidate for congress, but it has fallen flat and is more apt to affect the Democrats adversely through reaction than it is to injure Mr. Jaffa.

No Educational Qualification.
Fortunately for all parties in New Mexico, there is no educational qualification required of voters here, as in Arizona. In the latter state a voter must be able to read the constitution in English, and not merely by rote or parrot like at that. He must be able to give some reasonable interpretation of what he reads. The result has been that a very large proportion of the Mexican voters have been disfranchised. Nothing like this has happened in New Mexico, and others, unable to read and write English, may still be voted in the same old way. If you use it as we direct, hence the actual money saving in addition to having a smokeless fuel.

Domestic coke is genuine gas house coke, made from Swastika Lump coal, after all the gas, smoke, tar, dirt and other impurities have been removed at the gas works. It is refined coal, still retaining the heating value, all that really counts, but without the many disadvantages. It is a perfectly clean, smokeless fuel, easy to handle, burns readily, yet has a fire for long periods. It takes 2500 pounds of coal to make 2000 pounds (1 ton) of coke. Since the bulk and heat units remain practically the same, you can readily see that a ton of coke takes up as much space in your bin as a ton and a half of coal, and will go just as far if you use it as we direct, hence the actual money saving in addition to having a smokeless fuel.

It Pays

—To own a high class home site in a desirable neighborhood.
—To compare prices and get the best for the least money.
—To accept nothing but the most pleasing, because, later—it will not be necessary to move to more desirable surroundings.
You'll never be dissatisfied with your purchase and you'll get the best if you buy your home site in

Grandview Addition

Lots in Grandview are most desirable because of the natural beauty of its location its easy accessibility to the heart of the city and its absolute freedom from the dirt, noise and smoke of the city. All improvements are there including gas, electricity, water, telephones and car service.

WOMAN IS ACQUITTED ON CHARGE OF MURDER.

Pasco, Wash., Oct. 16.—"Not guilty" was the verdict rendered by the jury in the case of Mrs. Anna E. Christensen, charged with the murder of her husband, Henry E. Christensen, a Pasco banker, who died on a train between Pasco and Spokane June 1, supposedly from poison.

As carefully tailored as the suits and overcoats of the fathers are the "Skol-ny" made garments for boys which we feature in our juvenile department. Feature because we can conscientiously recommend them to parents who want their boys and service combined in their best appearance.

Call us up if your dealer does not have Boot's HYOMEL, and we will see that you get them. Phone 2173.—Advertisement.

When Baby Has Croup

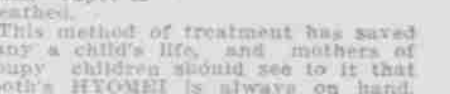

Every Mother should know about Boot's HYOMEL.

In any home where a child has a tendency to croup, a bottle of HYOMEL (pronounced H. High-o-mee) should be kept constantly on hand. A sudden attack of croup with difficult breathing and extreme distress is apt to come on at any time.

The course to be pursued is plain. Send for your doctor at once, and the meantime drop 10 drops of HYOMEL into a bowl of boiling water and hold the child's head over it, cover with a towel or cloth, so that only the warm air filled with HYOMEL vapor is breathed.

This method of treatment has saved many a child's life, and mothers of croupy children should see to it that Boot's HYOMEL is always on hand. Full instructions for prompt relief of croup is in each package.

Boot's HYOMEL is made of Australian Eucalyptus and other antiseptic. Hyomel returned if it does not give satisfaction in treatment of croup, coughs, colds, croup and catarrhal deafness. Ask Kelly & Pollard about it.—Adv.
